	South Carolina Association of Student Financial Aid Administrators	CODE NUMBER General 1 AREA General DATE APPROVED 07/14/84 DATE REVISED 02/27/97
	Policies & Procedures	
	Subject: Code of Practices	

1. The purpose of any student financial aid program--institutional, governmental or private--should be to provide monetary resources to students who seek further education but cannot secure it without financial assistance.
2. Financial aid consists of scholarships, grants, loans, and employment, either singularly or in combination, awarded on the basis of the applicant's documented financial eligibility.
3. Each post-secondary institution has an obligation to assist in realizing the national goal of equality of educational opportunity. Each institution should work with secondary schools, community groups, and other educational institutions in support of the goal to make it possible for the student to choose a college on educational rather than financial grounds.
4. Admissions decisions should be made without regard to the financial need of the applicant. Each financial aid administrator should make maximum effort toward the attainment of the goal of equality of educational opportunity; however, the institution should not use need-based financial aid as a recruitment device.
5. The institution should publish budgets that state the total yearly cost of attendance and that outline for each student seeking assistance an accurate estimate of his or her eligibility for financial assistance.
6. The principal responsibility for financing a postsecondary education belongs to the student and his/her family. Parents of dependent students are expected to contribute according to their means, taking into account their income, assets, number of dependents, and other relevant information. Students are expected to contribute from their own assets and earnings, including appropriate borrowing from future earnings and application for all public funds for which they might be eligible. The amount and type of self-help expected from students should be related to the individual circumstances.

	Policies & Procedures	
	Subject: Code of Practices	

7. In awarding assistance, financial eligibility should be given primary emphasis. Academic achievement, special talent, and future promise may be considered, secondarily.
8. An applicant for financial aid shall not be required to give any institutional notice of his or her acceptance of a financial aid offer until three weeks after award notification. Applicants not offered financial aid should be provided with the specific reasons for denial and sent information on potential sources of aid.
9. A statement of financial aid renewal policies should be included with the initial award. Applications should be reviewed annually and adjusted to reflect changes in the financial eligibility of the student. Withdrawal of financial assistance is not suitable discipline; efforts to use financial aid in this manner should be actively resisted by financial aid administrators.
10. All financial aid of an institution should be administered in such a way as to make the most efficient use of available funds.
11. Public and institutional knowledge of financial aid functions should be encouraged through professional relationships between the financial aid staff and the public it serves. Professional research and advocacy are part of this responsibility.
12. A standing committee consisting of administrative officials, faculty, students and a representative of the financial aid office should function at each institution to establish the overall financial aid policies. It may also serve as a Board for students who wish to appeal financial aid decisions. Policies and procedures to protect students' rights should be developed and clearly stated.
13. The procedure for applying for financial aid should be as simple and concise as possible.

	Policies & Procedures	
	Subject: Code of Practices	

14. Policies and procedures for eligibility determination should be applied consistently to all students of similar types to ensure fairness and equity among all students in a given institution.

15. All records and conversations between an aid applicant, the applicant's family, and financial aid administrators are confidential and entitled to the protection ordinarily given a counseling relationship. Care should be exercised that no public announcement be made of award amounts. Financial aid should be administered in such a manner that other interests, important though they may be, are subordinate to the needs of students.

	Policies & Procedures	DATE APPROVED April 23, 2006
	Subject: Student Success Scholarship	DATE REVISED 09/26/11

Beginning with the 2005-06 administrative year, funding will be set aside for the awarding of the South Carolina Association of Student Financial Aid Administrators' Student Success Scholarship. Scholarship funding will be provided for making individual student scholarship awards each year until the time when it is no longer financially responsible for the Association to do so or the Executive Board decides that providing such funding no longer is an organizational priority.

1. The President will recommend to the Budget Committee at the beginning of his or her term in office the amount of funding to be set aside in the operating budget for SSS awards during his or her term in office. Individual scholarships will be valued at \$1,000; no fewer than one (1) or more than five (5) scholarships will be funded for awarding annually.
2. Scholarship funding will be awarded to member institutions so that they can select scholarship recipients. The selection of the institution(s) that will receive funding for the awarding of SSS awards will be done through a drawing conducted by the President-Elect each year at the annual conference as noted in #3.
3. The name and the institution represented by each elected Executive Board member, appointed committee chairperson and active committee volunteer will be entered into a drawing. The committee chairperson will determine whether a volunteer has been active by considering whether the member participated and contributed in some manner to the committee's activity during the past year. Multiple participations will be given multiple entries into the drawing (eg. if a member is an elected officer and actively serves on three committees, his or her name and institution will be entered into the drawing four times). Only the names of individuals employed at educational institutions actively enrolling students at the time the selection pool is created will be entered into the drawing. Preparation for and administration of the drawing at the spring conference will be the responsibility of the President-Elect or his or her designee.
4. Scholarship funding will be provided to the selected member's institution prior to the close of the current fiscal year.

It is SCASFAA's intention that SSS awards be provided to the selected student recipient for enrollment period or periods prior to the next spring conference. SCASFAA's only restrictions for selection of the award recipient are that he or she be a South Carolina resident, be a full-time student enrolled at the awarding institution and be meeting the institution's satisfactory academic progress policy for eligibility for federal student aid. SCASFAA also asks that the recipient acknowledge receipt of the scholarship funding in writing to the Past President of SCASFAA during whose term the funding for the award was made available.

	Policies & Procedures	DATE APPROVED 07/17/84 DATE REVISED 9/27/10
	Subject: Procedures	

In order to provide for a consistent and efficient site selection process, the following procedures have been established:

1. The President shall appoint a site selection chair. The Chairperson shall recommend, for the approval of the Executive Board, a site and facility for the association's annual conference two years in advance of the conference. (Example: The 2007-2008 Site Selection Committee will recommend approval for the 2009-2010 annual conference.) The President, at his or her discretion, may direct the Site Selection Chairperson to evaluate sites and facilities one year in advance, instead of two, upon evaluation of current and projected economic climates which may impact the feasibility of signing a contract two years in advance. In determining potential dates for future annual conferences, the Executive Board and site selection committee should consider traditional annual events and holidays affecting the membership as well as the dates for already scheduled events including conferences for other state financial aid associations with proximity to SCASFAA.
2. The Chairperson shall bring recommendations to the Executive Board for approval.
3. The Chairperson shall be a member of the Executive Board and shall appoint a committee to assist with site selection. The committee shall solicit potential sites from the membership in a manner to be determined by the Chairperson.
4. The Committee shall contact hotels in the cities that are possible locations for an annual conference that may be held either during the Fall or Spring in order to determine the feasibility of having the meeting at that facility. The Committee may request brochures, food and beverage prices, written proposals or any other written information or materials it deems necessary. If the Chairperson feels it appropriate, the Chairperson and/or one or more members of the Committee should visit each possible facility in order to accurately assess its potential.
5. In assessing the potential of possible meeting facilities, the site selection checklist should be used as a guide by the Committee.

Since the strength of an organization is reflected in those who lead, the Association encourages all Active members to serve in leadership positions. It is the policy of the Association to seek out and encourage its best-qualified members to run for office in the Association. Responsibility for adherence to this policy is housed with the Nominations and Elections Committee.

To facilitate maintenance of a sound and equitable nomination process, the following procedures have been adopted:

1. The chairperson of the Nominations and Elections Committee shall be the Past-President.
2. The Chairperson of the Nominations and Elections Committee shall establish a deadline for, and solicit nominations from the membership through all appropriate means. An announcement calling for nominations shall be published in the Association Newsletter prior to January 1.
3. The Committee must present to the Association a dual slate of candidates for all offices for which at least two nominees agree to run. A candidate for office shall not serve as a member of the nominations and elections committee. Should this occur, the nominated individual should resign from the committee (if s/he agrees to run) and the Chair of the committee shall seek out a substitute to the committee.
4. Once the Committee has developed its list of qualified individuals, the Committee shall contact the top two individuals by telephone to determine if they will accept nomination and run for office. If one or both individuals decline the nomination, the Committee will then contact the other nominees in order as they appear on the list. If sufficient individuals have not been nominated in order for the Committee to present a nominee for each office, the Committee shall approach any active member whom the Committee feels is qualified for that office to determine if they will accept nomination.
5. Once the Committee has determined its slate of candidates for office, the Chairperson will forward this slate to the President.
